

**7210 CD Order Form: ISO 9004 Assessment Criteria Checklist for Performance Improvement**

We suggest purchasing *ISO 9004 Assessment Criteria Checklist for Performance Improvement* CD as a valuable tool for conducting internal and external (self and supplier) gap analysis. The CD is a comprehensive list of ISO 9004 criteria that goes beyond what was provided with the *Continual Improvement Assessment* e-learning class and book. The criteria are on a CD that is indexed and allows data entry in form fields aligned with each criteria. Supplemental observations can be added in an open-notes section. To purchase the CD please complete our order form.

Description: Promote on-going continual improvement by assessing your organization against mature system models to identify opportunities for improvement. Conducting a gap analysis will initiate new ideas for improvement and innovation.

The ISO 9004 Assessment Criteria Checklist deciphers some of the technical jargon to more useful and easy-to-understand terms. The criteria is in the same order and number as the ANSI/ISO/ASQ Q9004-2000 Quality management systems - Guidelines for performance improvement standard.

The CD is \$35 each [FREE S&H in North America] = Amount \$\_\_\_\_\_
